Sherry,
The documents you will be receiving are for Gorst Landfill and the Bremerton Auto Wrecking Facilities. There are approximately 1600 plus pages that you are paying for, plus the 500 which are free of charge.
Thank you.
Sally

Thanks to you Ron for obtaining them so quickly.

While I now have what I need to answer the mail, is there anyway to find out what reports HC prepared for us on Gorst aside from the PRP search and SHA to make sure we have them all?

Hello Nancy,

The Gorst SHA Tables and Appendices have been received. Unfortunately they arrived from the HART Crowser archives in hard copy form. We need to scan them, make a copy for ourselves, etc.

Bottom line, you shall have a hard and/or electronic copy delivered to you no later than cob Monday. If you need it sooner, that can be arranged. Just let me know. Thanks for your patience.

sincerely,

Rod

Rod -

A few weeks ago, I asked if you could try to obtain a copy from Hart Crowser of the Site Hazard Assessment prepared for the Gorst aka Bremerton Auto Wrecking Landfill. Mareen gave me a copy that she had obtained from Dina but unfortunately it did not have the Appendices and the Appendices are what I specifically need.

Maureen,

The above listed contracts that Dianne Vogel and I added to the Site 7, phase 6 are no longer needed. The person at Ecology's Central Records is new and was unaware that the Department of Navy does not pay for copies. I being new did not know this either. Not sure how to remove the request; if you could help me to remove the above work requests I would appreciate it. Contract # 09NW0038 is for \$420.00 and 09NW0039 is for \$90.00.

Thank you,
Sherry Rone,

Nancy,

I Spoke with Ching Pi Wang, of Ecology, he stated the following:

1. Ecology is not currently working on the Gorst Landfill aka Bremerton Auto Wrecking; they do not view it as a significant environmental threat, but as a geotechnical issue. The problem is the garbage has been piled very high and will eventually end up flowing onto Route 3.

2. Ecology does have a great deal of information on the site, which can be obtained from their central files located at 3190 106th Avenue, SE; Bellevue, WA 98008; phone 425-649-7000. In addition, the Navy may be able to get additional information from Jane Brower, the Gorst Landfill point of contact for Kitsap's Health District. She can be reached at 360-337-5672. I am available to call and make an appointment with central files to gather documents of interest.

3. According to Mr. Wang, past sampling has found no detection of contaminants, which supports Ecology's view that this is a geotechnical problem and not an environmental problem. Mr. Wang also stated that he believes the issues associated with the Gorst Landfill are the responsibility of the owner. Mr. Wang believes that it is in the Navy's best interest to determine who initiated this action with the Navy, since Ecology is not currently working on this issue.

I hope this helps some; again, I am available to go to Central Files to gather information.

Sherry:

We have several files on the site that would be very helpful to you. We have NAVFAC reports on work the Navy has done on the site. Strongly recommend you make a trip here to review the files.

V/R,

Ching-Pi
